“ROOTS IN CRAFT AND QUALITY”

BLUE MOUNTAIN CHERRY CIDER

Our most in demand year round cider. Blue Moutain Cherry combines our award winning apple base with the worlds best cherries to make a magnificent matchup of classic northwest flavors. As growers of cherries from the Walla Walla valley to the shores of lake chelan, we scour our orchards in the pacific northwest to find just the right combination of color and flavor. A reddish pink hue greets you in the glass, and the perfect balance of tart cherry flavor and acid combined with the refreshing crispness of our dry cider base creates a cider that keeps you interested from first sip to last.

Apples: Gravenstein, Pippin, Winesap, Jonagold, Golden Russet
